

Gallaudet President Jerry C. Lee addresses a group of representatives from French speaking African nations Monday, Nov. 5 at "Ole Jim." The representatives were on campus to attend a meeting sponsored by the International Center on Deafness concerning the possibility of offering a seminar for persons from those nations.

DOSS reports thefts in parking lot

A number of crimes have been committed recently in the Field House parking lot, according to the Department of Safety and Security.

During the month of October, the department recorded six thefts and six attempted thefts from vehicles parked in the lot. Officers observed an individual attempting to break into a vehicle on the upper level of the Field House lot on Oct. 17. However, the individual fled the scene before officers could apprehend him.

On Oct. 26, officers observed an individual attempting to break into a vehicle parked on the lower level of the Field House lot. The individual assaulted an officer and escaped from campus.

Presidential awards program initiated

Gallaudet President Jerry C. Lee has announced the formation of a presidential awards program designed to fund innovative academic projects or ideas.

"The purpose," Lee said, "is to spark faculty interest and creativity in academic program development. We have many talented professionals here with ideas that could impact on Gallaudet's success and growth in future years. The awards program will provide the funds to pursue a creative idea or project that would not normally be supported through other means.

Proposals, detailing the project to be undertaken, staff requirements, timelines for completion and budget, must be submitted to the President's Office at EMG by Dec. 15. The first presidential awards will be announced in January.

The Department of Safety and Security has three suspect descriptions, which may or may not be the same person.

The first suspect is a black male between the ages of 20 and 22, who was wearing a jogging jacket and white tennis shoes when he was spotted on campus Oct. 8 in the Field House parking lot. He is approximately 5 feet 9 inches tall and weighs approximately 135 pounds.

The second suspect, spotted Oct. 17 in the parking lot, is also a black male who was wearing blue jeans, a grey shirt and white tennis shoes. He is described as about 6 feet tall.

The third suspect, also a black male, was seen on campus Oct. 26. At the time of the incident, he was wearing tan pants, a blue windbreaker and white tennis shoes.

The Department of Safety and Security

Faculty seminar focuses on cultural and linguistic diversity in education

The first faculty development seminar of the academic year was held last month, with the topic of discussion focusing on issues related to cultural and linguistic diversity in education.

Co-sponsored by the School of Education and Human Services (SEHS) and the Department of Educational Foundations and Research, the Oct. 17 seminar was attended by 60 faculty members and graduate students.

Orlando Taylor, a professor at Howard University, and Ernie Hairston of the Federal Office of Special Education Programs were the featured speakers at the seminar.

During his presentation, Taylor raised a number of issues with respect to cross-cultural and multicultural sensitivity in educational settings. He also discussed various aspects of culture, the nature of and potential problems to be found in cross-cultural relationships in the classroom and the way in which the role of deaf culture and sensitivity to the deaf community at large might be encouraged among classroom teachers.

Hairston, author of "Black and Deaf in America," offered a summary of the central thesis of his book and discussed the educational and social implications of being both black and deaf.

Following the presentations, faculty members were divided into two discussion groups. The first group, led by John Madison, an assistant professor in the Department of Education, was concerned with the transmission of deaf culture and the role of American Sign Language in that process. The other group, led by David Martin, an assistant professor in the Department of Education, discussed cultural myths and stereotypes about deaf students at Gallaudet College as well as the cur-

Ernie Hairston

ricular and pedagogical implications of those myths and stereotypes.

The two work groups will continue to meet throughout the year to develop an SEHS position paper regarding cultural and ethnic concerns in the training of teachers and other professionals who will be working in school settings.

Both Taylor and Hairston will assist the groups in developing the position paper.

That paper should be completed by the end of the spring 1985 semester, according to Boris Bogatz, assistant dean of Technical Assistance Services in SEHS. Bogatz and Tim Reagan, an assistant professor in the Department of Educational Foundations and Research, coordinated the seminar.

Two-week benefit campaign begins

The Combined Federal Campaign will begin its two-week effort on campus this week. A kick-off program is scheduled for Wednesday, Nov. 14 at 3:30 p.m. at the KDES auditorium.

Campaign workers at Gallaudet have set a goal of \$28,200 for this year. Last year the campus raised \$25,694.

The Combined Federal Campaign supports voluntary health and welfare agencies. This year marks the first year contributors can donate to any human health and welfare charity recognized as tax-exempt by the Internal Revenue Service under 26 U.S.C. Section 501 (c) (3).

Employees are encouraged to make contributions through the payroll deduction plan. Deductions will begin in January.

The Gallaudet Day Care Center held an open house Monday, Nov. 5 at the center located in the renovated Appleby Building at the corner of Florida Avenue and Sixth Street.

Library Bits & Pieces

Deaf architects by Michael J. Olson

As you may know, Dawes House on campus was designed and built by a deaf architect—Olof Hanson, who was an 1886 graduate of Gallaudet College. Dawes House is the only building on campus designed by Hanson.

There were other deaf architects who would have designed two other buildings on the campus but never did. One was Thomas S. Marr, an 1889 graduate of the College. He was a successful deaf architect in Nashville, TN, who became interested in architecture when he was young. In Tennessee, he established a firm where he and his partner, Joseph Holman, a hearing architect, worked together. They designed many buildings in the Nashville area, including the Tennessee Supreme Court, the Nashville Post Office and the Tennessee School for the Deaf in Knoxville.

In 1935, Gallaudet College asked the Marr and Holman firm to be the architects for a memorial building in honor of Edward Miner Gallaudet. They agreed to draw preliminary sketches and specifications of the memorial building. Harry F. Cunningham of Washington, D.C., agreed to be their associate.

However, in 1936 the Budget Bureau turned down the College's request for appropriations for the new building. Another problem arose when Cunningham withdrew from the project.

Marr and Holman continued with the project but in March 1936 Thomas S. Marr died of pneumonia. The plans to erect the memorial building were in jeopardy. Congress failed to pass the

appropriations for the building. The plans were abandoned because of the death of Thomas S. Marr and Cunningham's withdrawal from the project.

In 1968 the Gallaudet Centennial Fund, which was originally used in 1964 to celebrate the 100th anniversary of the College, was dissolved. It was divided into three funds: the Graduate Scholarship Fund, the Laurent Clerc Cultural Fund and the Alumni House Fund. The Alumni House Fund Committee was formed to provide a suitable building on campus for alumni and faculty.

The committee hired a deaf architect, Hilbert C. Duning of Cincinnati, OH, to be the architect for the Alumni House. He drew up sketches and specifications for the three-story building, which included alumni and faculty headquarters, living quarters, dining rooms, a cocktail bar, reception rooms, storage rooms, an heirloom room, a caretaker's apartment and guest rooms. At the time, the Gallaudet College Master Plan called for the demolition of "Ole Jim" and the building of the Alumni House on the site of "Ole Jim."

Hilbert Duning died of a brain hemorrhage resulting from a fall on Aug. 4, 1969. He was 59. Mrs. Hilbert Duning requested that her husband's project be carried out by his deaf brother, LeRoy, who was a teacher of architectural drafting at the National Technical Institute for the Deaf.

The committee asked LeRoy Duning and his associates to design College Hall into the Alumni House but found it to be very costly. The project to remodel College Hall was dropped. The plan was abandoned because of Hilbert's death and a lack of funds.

A College Fair was held last month at the MSSD Learning Center so that juniors and seniors could talk with representatives of schools and programs they might be interested in attending after graduation from MSSD.

Campus hosts residence hall workshop

The Office of Student Life, a unit of Student Affairs, late last month hosted the second annual Residence Hall Programming Conference which is designed to assist residence hall staff and student leaders with establishing and maintaining a well-rounded residence hall program.

Held Oct. 19-21, the workshop attracted 150 participants from across the country and was lead by Floyd Hoelting, the director of the Office of Residential Life at Illinois State University and a national consultant in residence hall programming, leadership behavior and staff development.

Through presentations and group discussions, the workshop sought to help participants establish and maintain at their campuses a sense of community via their programming efforts. Hoelting defined community as "an arena of thoughts and ideas in a marketplace of human services." He believes that residence halls provide a perfect forum for sharing human services and exchanging ideas, interests and abilities.

"If one is to take a broad look at the definition of education, it would include not only the academic development of students but also the development of the whole person as a contributing community member," participants were told in an introduction to the conference.

To illustrate the importance of residence hall programming, Hoelting noted that students spend approximately 15 hours a week in class and between 80 and 100 hours a week in their dormitories. "With the realization of the amount of time students actually spend in the residence halls also comes the responsibility of residence educators to utilize that time," he stated.

Marsha Miceli, director of Student Life, stressed that that statement holds true for hearing and deaf students alike. Miceli, who opened the conference with an introduction to Gallaudet, pointed to a paper, "The Deaf Child and the Unwritten Curriculum," written by Merv Garretson, special assistant to the president. In

that paper, Garretson said that a student's non-schooling hours are 11 times that of those spent in the classroom.

Garretson's paper reads in part: "... Let's look at the average year in the daily living of a normal school-aged student—that is, a full 365 days multiplied by 24, which gives us a total of 8,760 hours. Since most school systems appear to operate on a 180-day school year, this adds up to 720 hours of actual classroom time out of the 8,760—or a mere eight percent. What happens to the other 92 percent of the year when the child is not in school?"

"It is possible to do some fairly close estimating. From information that the average child spends a total of 50 hours a week in front of the television set and by allowing for eight hours of sleep, time for meals and snacks, estimating periods utilized for play, movies, visiting, shopping, personal hygiene, travel and other miscellaneous activities, we are able to distribute a child's 8,760 hours during a normal year as follows:

- 2,600 hours viewing television
- 2,920 hours sleeping or napping
- 1,095 hours eating (meals and snacks)
- 1,425 hours miscellaneous
- 720 hours at school.

With that in mind, exercises were conducted during the workshop to help promote leadership behavior and programming and community interaction.

Between 20 and 30 residence hall student paraprofessionals at Gallaudet attended the conference, along with several Student Affairs staff members.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on these and other programs of interest can be obtained from the Office of Sponsored Research at x5030 (voice or TDD).

Deadline	Program
11/29/84	ED: Fund for the Improvement of Postsecondary Education
12/7/84	OSERS: Secondary Education and Transitional Services of Handicapped Youth
12/31/84	Kellogg: Kellogg Foundation's National Fellowships
Early January	ED: Mina Shaughnessy Scholars
1/10/85	OSERS: Handicapped Children's Early Education Program
1/15/85	NSF: Research Opportunities for Women
2/1/85	DCCHC: The Meaning of Work; Humanities and Women; Humanities and Urban Life; Humanities in the Schools
3/1/85	NCHSR: Health Care Technology Research

3/1/85	NIDA: Marijuana Research
3/1/85	NIA: Older People and Social Institutions
3/1/85	NIOSH: Research and Demonstration Grants
3/1/85	NIMH: Research on Stress Reactivity in Adolescence
No Specific Deadline	NSF: Intergovernmental Program

Demonstration projects

The Office of Special Education and Rehabilitative Services will award approximately 20 new grants for demonstration projects under the Handicapped Children's Early Education Program.

The purpose of this program is to support experimental preschool and early education programs for handicapped children. The Office of Special Education and Rehabilitative Services especially urges submission of applications that address the needs of unserved and underserved preschool children who are severely and multiply handicapped or that attempt to improve skills for use in the family, home or day care centers. The deadline for applications is Jan. 10, 1985.

For further information, contact the Office of Sponsored Research at x5030 or the Department of Education at 732-1179.

No OTG next week

On the Green will not be published next week. The next issue will be published on Monday, Nov. 26. The deadline for submitting items for that issue is Friday, Nov. 16. Items should be sent to *On the Green*, Office of Alumni Relations and Advancement, at Chapel Hall.

Chamber ensemble to perform at Ely

On Nov. 28, between the hours of noon and 1 p.m. in the Ely atrium, the Gallaudet community will be treated to a special event. A chamber ensemble specializing in baroque music (i.e., music of the 17th and 18th centuries) will be playing in the atrium and, given the season, these highly skilled musicians will perform Christmas music as well. The instruments are: harpsichord, violin, cello and flute. The music is quite beautiful and I encourage all to attend.

Letter

One may ask, and with justification, why such an unusual musical group would be invited to play at a college for the deaf. After all, instrumental music cannot be signed and this particular kind of music is not amplified as is rock or much of blues. It is music simply as music.

However, and this is a big however, it must be said that music is such a vast phenomenon, such a powerful force in virtually every country on earth, that there is, as with skinning a cat, more than one way to experience it.

Ultimately, music is not about ears but about the human spirit. It is an activity which the ancient Greeks and modern teen-agers have shared with an equal frenzy. It causes lines to form several blocks long to see a film such as "Amadeus" and it brought down the walls of Jericho. Pythagoras saw music in the heavens and the German poet, Goethe, saw it in the city: "I call architecture frozen music."

Music is history, it is religion, it is mathematics, it is art, it is people. I maintain then, that the event in the Ely atrium on Nov. 28 is for *everyone* at Gallaudet—regardless of hearing loss. Merely the visual presentation, and all that it represents, will be an enriching experience. There will be something there for everybody.

Campus-wide drive assists the needy

A drive is under way on campus to assist with Project Harvest, a charitable organization based in Washington, D.C. which conducts an annual campaign to provide families in need with Thanksgiving baskets.

Baskets with a full Thanksgiving meal of fresh turkey or ham, fresh vegetables and greens, bread, eggs, fruit and dessert are distributed by social workers to area families.

The effort on campus, coordinated by the Gallaudet Social Work Club and Beth Betman, a social worker with Clinical and Support Services at MSSD, is seeking contributions both in the form of money and canned goods. Money is especially needed to purchase turkeys, hams and fresh produce. All donations are tax deductible and are needed by Nov. 19.

Anyone wishing to make a monetary contribution should make a check payable to Project Harvest and send it to Beth Betman at Box #31 at MSSD, Barbara Pollard at Sociology and Social Work, West Office Building or Richard White at KDES.

Canned goods can be dropped off at the following locations: the Ely Center front desk, Room C 10 in the Department of Sociology and Social Work at the West Office Building, the Northwest Campus library and the front lobby of

All that I have said so far is really a long-winded way of asking: Why is there no formal course of study in music at Gallaudet? This institution is, after all, a liberal arts College, and from what I understand may someday be a liberal arts university; and yet there is zero in the curriculum in regard to music. The Model Secondary School has had a formal music program now for over seven years (it is a wonderful program, by the way, and the people who put it together, Norman Lederman and Karen Semanchik, are to be applauded). Unfortunately, it is not unknown for Gallaudet students to trek up the hill to MSSD seeking to participate in and to learn about music. The reverse is also true. Former MSSD students who enter Gallaudet, expecting to continue their musical studies, are struck by the fact that what they got in high school shall not be theirs in College. It is quite sad.

Music deserves, if not demands, study and I think Gallaudet should establish a course of study as soon as possible. My research so far clearly indicates support for this among students, faculty and administrators—deaf and hearing alike. I think it would simply be wonderful to broaden the intellectual experience of our students in a direction that many of them may never have dreamed of going. Accessibility is the word.

I thank you for your attention and please enjoy the concert on Nov. 28.

Department of English

DOSS warning

continued from page 1

Security encourages anyone who has seen a suspicious person on campus to notify the department immediately. The department can be reached at x5555 (voice) and x5666 (TDD).

MSSD. Persons at KDES should contact Richard White about donating canned goods.

MSSD has participated in Project Harvest since 1979 and KDES has participated in the project in years past. This is the first year the entire campus will be involved in the charity drive.

Anyone knowing of families in need of food should contact Beth Betman at x5881 or Barbara Pollard at x5342.

Orlando Taylor, a professor at Howard University and one of the speakers at the first faculty development seminar of the academic year, talks with a student at the conclusion of the seminar.

The Gallaudet Dancers performed for the representatives of French speaking African nations during lunch at "Ole Jim" Nov. 5. The representatives were on campus for a meeting but stayed for lunch and a tour of the campus.

Gallaudet's Student Health Service was transformed into a M*A*S*H unit for Halloween, with workers dressed in the appropriate uniforms. They were among a number of employees across campus who worked in costume that day.

Among Ourselves

Kay Meadow of the Gallaudet Research Institute Center for Studies in Education and Human Development participated in a training workshop on special education in Jakarta, Indonesia, for 10 days in August. This was part of a project funded by the World Bank to improve educational opportunities and services in developing countries. Participants included 30 faculty members from teacher training colleges who are candidates for fellowship study in North America and Europe. Other faculty members included a specialist on blindness from the University of British Columbia and a specialist on mental retardation from the Norwegian Institute for Special Education.

Carol LaSasso, a professor in the Department of Education, presented a paper entitled "Test Taking Skills of Readers with Special Needs" at the 1984 World Congress of the International Reading Association in Hong Kong Aug. 1.

Jose Manuel Navarro of Romance Languages and International Studies is now an officially certified interpreter for Spanish and English in all United States federal courts. To be certified, interpreters must demonstrate a command of standard, idiomatic, technical and legal Spanish and English as well as a command of the grammar of both

languages in written and oral tests. Of the 5,000 candidates tested over the last four years, only 260 have been certified. Navarro was one of 1,608 people tested in the written test, with 215 persons passing that test. Those persons were then tested for oral competency, with 41 persons passing the exam. They were then certified. Certified interpreters are licensed to practice in the United States federal courts of the continental United States, Hawaii, Puerto Rico and the U.S. territories.

Papers published

The two-volume set of *Working Papers* from the June 1984 Gallaudet International Symposium of Cognition, Education and Deafness was reprinted because of the demand from professionals in the fields of education and research.

The set, containing 28 scholarly papers and descriptions of four demonstration educational programs relating to cognition in the hearing-impaired learner, encompasses topics relating to cognitive styles, cognitive processes, reading and cognition, measurement of cognitive potential, language and cognition and the effects of cognitive intervention programs.

A limited number of copies are available upon request from any division, department or campus unit at no cost to departments until Dec. 1. To receive a desk copy of the collection, contact David Martin, editor of *Working Papers*, in the Department of Education, Fowler Hall, or leave a message at x5400 (v/TDD).

SEHS faculty seminar

continued from page 1

Anyone interested in more information or in giving input on the position paper should contact Bogatz at x5395.

The faculty development seminars, an ongoing series sponsored by SEHS, are offered during the academic year and are designed to improve teacher effectiveness. Although the issues addressed by the seminars are of concern primarily to persons in SEHS and related areas of professional training, they are open to all faculty, staff and graduate students.

The next seminar will be offered during the spring 1985 semester.

A student at KDES registers to vote in the primary precinct for a mock presidential election held at the school Nov. 6. Walter Mondale won the KDES election.

General campus announcements

• The Gallaudet College Theatre Arts Department will present Tennessee Williams' "The Rose Tattoo" Nov. 16 and 17 at 8 p.m. at Elstad Auditorium.

Set in the 1950s in a Gulf coast village populated primarily by Sicilians, the story revolves around a woman named Serafina della Rose who dominates the small town where she and her friends live. The production is directed by Gilbert Eastman.

Tickets are \$2.50 for students and children (including sign language students) and \$4.50 for all others. Gallaudet students with identification will be admitted free of charge.

Reservations can be made by calling x5608 (TDD) or x5605 (voice). Box office hours are: Nov. 12-15 from 2 to 5 p.m. and Nov. 16 and 17 from 2 to 8 p.m.

• Two health benefits fairs will be held Nov. 12 and 13 between 10 a.m. and 2 p.m. in the Ely Center multipurpose room.

Representatives from the following plans will attend the health benefit fair on Nov. 12: Group Health Association, Choice, Kaiser-Georgetown, George Washington University, Blue Cross/Blue Shield, Mailhandlers, Health Plus, Aetna, American Postal Workers' Union and Maryland Individual Practice Association.

On Nov. 13, representatives from the following plans will be on hand: Group Health Association, Choice, Kaiser-Georgetown, George Washington University, Blue Cross/Blue Shield, Mailhandlers, Health Plus, Columbia Medical Plan, American Postal Workers' Union and Maryland Individual Practice Association.

• The Student Health Service will

sponsor another lecture in its Health and Wellness series Tuesday, Nov. 20 from 7:30 to 8:30 p.m. at Carlin Hall. That discussion will focus on sexually transmitted diseases.

• The Office of Intramurals and Campus Recreation is seeking faculty and staff members to serve as instructors and/or facilitators for spring classes and activities. In particular, anyone with experience/expertise in speed-walking or therapeutic massage is encouraged to contact Gina Oliva at x5362, x5365 or x5682.

The Office of Intramurals and Campus Recreation has a policy of utilizing on-campus personnel in order to keep participant costs down as well as to provide opportunities for the sharing of knowledge and expertise by those who wish to do so.

• A Thanksgiving buffet will be held Thursday, Nov. 15 from 4:30 to 7 p.m. at the Plaza Dining Hall. The buffet will cost \$5.40 and will include homestyle corn chowder, carved roast tom turkeys, carved roast loin of pork, fillet of sole bonne femme, spinach fettucine with vegetable sauce, a variety of salads, vegetables and desserts.

• Under the auspices of the Montgomery County Association for Hearing Impaired Children (MCAHIC), a cued speech class is now being offered at the Bauer Recreation Center on Thursday evenings from 7:30 to 9.

Open to the public, the class is taught by Barbara Williams of the Cued Speech Office and Susan Russell, a teacher of deaf students in Montgomery County.

For more information, call the Cued Speech Office at x5527.

First MSSD-AFS Olympics held

MSSD's chapter of the American Field Service hosted students from four Maryland high schools recently in the first MSSD-AFS Olympics.

The visiting hearing students joined their counterparts at MSSD for a day of blind volleyball during which the net was covered with a blanket, scooter-board races, shoe-exchange relays and swimming competitions, which included a race in full football uniform.

Students from Churchill, Walter Johnson, Gaithersburg and Bullis high schools attended the daylong event which culminated in a cookout.

"The overwhelming reaction was really positive," said Janne Harrelson,

AFS advisor at MSSD. "The hearing students learned a lot about being deaf just by coming here to our own turf."

Jennifer McMillan, an MSSD communications instructor, led icebreaking activities in nonverbal communication that ended with the selection of four teams, each with members from all five schools.

"By lunch-time they were communicating well," Harrelson said.

AFS is the organization which sponsors the exchange of students between schools throughout the world. This was the first joint activity among participating area schools but, said Harrelson, it will not be the last.

Kendallgreenitis

This is the first installment of a new column of quips and brief quotes which reflect the lighter side of life on Kendall Green, deafness and higher education in general. Reader participation is welcome and encouraged. Send your items to "Kendallgreenitis," College Hall Room 1.

Passerby: "Have you registered for the inauguration festivities yet?"

Sam Wagner, with a look of disbelief: "Me register?! The last time I registered I got drafted!"

Newly-inaugurated President Lee did not waste much time leaving his mark on history. He will be remembered (among other things) as the first Gallaudet president to accompany the Homecoming Queen in a car which ran out of gas during the parade.

GCAA President Gerald Burstein, who hails from California, during the dedication of buildings on the Northwest Campus: "Such a beautiful day. Perfect weather. (Pause.) I brought it."

Byron B. Burnes, '26, admiring Burnes Hall dedicated in his honor: "I hope the young people it serves will enjoy the same blessings of life that Gallaudet College brought to me."

Beverly Schreiber Perrell, responding to the dedication of Schreiber Hall in memory of her father, Frederick C.: "I'll always remember Father's famous line: 'There's no such word as can't!'"
